“Tranquility is established even before patients enter our office,” explains Dr. Kern, who aims to achieve the most aesthetic results possible in a nurturing environment conducive to quality, all-encompassing dental care. “Our patients receive appointment reminder phone calls, as it helps reflect our genuine regard for patients’ time, schedules and contentment. Upon visiting the office, they are freed of stress, thanks to the relaxing soft music, Zen-like ambiance and serene aromatherapy.” Other spa amenities include paraffin hand wax treatments, warm pillows, a refreshment station, virtual reality DVD players and personalized music selections. “Our treatment suites are like personal entertainment systems,” explains the doctor, who began her dental career as a hygienist in 1977 and went on to receive her Doctor of Dental Surgery from the UCLA School of Dentistry in 1989. “My office is more than just a dental practice. This is a smile destination committed to patients’ complete dental health. We seek to relax the mind and empower the spirit while simultaneously delivering customized smile designs in accordance with patients’ specific goals.” The deluxe service doesn’t stop there. The office helps out-of-town guests make hotel and spa accommodations upon request. “We want to show people that cosmetic dentistry can be a rewarding, peaceful experience,” explains Dr. Kern, a former USC and UCLA faculty member, whose love for teaching reflects her commitment to education and speaks to the level of dentistry she performs in her practice. “I have a dedicated, intimate staff of six nurturing women ready to serve you and help you achieve the smile you’ve always dreamed of.”

DR. JEANETTE KERN

BEST ADVICE YOU’VE RECEIVED My father told me to never stop learning
NAME A RECENT ACCOLADE YOU’RE PROUD OF Professional Women’s Network awarded me 2007 Woman of the Year
HEALTH AND BEAUTY TIP Eating broccoli, cauliflower and apples is a great way to naturally whiten teeth
I START EACH DAY With an attitude of gratitude, thinking about all of the things I’m thankful for
FAVORITE QUOTE Be the best you can be

INSIDE INFORMATION

SMILES BY DESIGN

Devoted to creating individual results that effectively realize each patient’s expectations in relation to their facial structures, Dr. Kern spends a **FULL 90 MINUTES** with each new smile design patient to thoroughly devise a **CUSTOMIZED TREATMENT PLAN**. “This helps empower people, enabling them to better communicate their goals.” With pictures of Dr. Kern’s smile makeovers on the walls of her **COZY CONSULTATION ROOM**, patients can get a more precise idea of the look they’re hoping to achieve while communicating their goals in a non-threatening environment. “Establishing a **TRUSTING RELATIONSHIP** with patients is important to me. It makes me more approachable and allows me to develop a bond with patients before even looking in their mouths.” Upon actually performing dental exams, Dr. Kern proves extremely thorough. “I take radiographs, photographs and measurements and perform oral cancer screenings and gum exams prior to treatment,” says Dr. Kern. “All patients requiring smile makeover treatments receive temporaries, so they can try on their new smiles before committing to them.”
