### *Fall Allergies and Colds*

Allergies and colds clog sinuses and force mouth breathing which is a major contributor to dry mouth and decay. We understand that no one likes to visit us for fillings.

To prevent dry mouth and decay we offer several products that stimulate saliva production, protecting your teeth and keeping your mouth healthy. Our Be Well oral health solutions range in price from \$15 - \$60, much less than a filling, and a whole lot more fun.

### *Give Back A Smile*

October is domestic violence awareness month. In our office we are dedicated to restoring health and hope. A few months ago a patient came to us through the Give Back A Smile program. Give Back A Smile is a non-profit organization that helps the survivors of domestic violence regain their smiles by using state of the art dental techniques to improve the function and appearance of teeth.
